

Outcomes and experiences S3 Physics	G	O	R	How do I know I can do this or what can you do to improve your learning in this outcome?
I can define input devices as being able to sense or take in a useful energy and convert it into electrical energy				
I can identify the symbol, function, and possible application for a range of devices including <ul style="list-style-type: none"> • Switch • LDR • Microphone • Thermistor • Photovoltaic Cell • Capacitor 				
I can explain the operation of circuits which contain LDRs or thermistors				
I can carry out Ohm's Law calculations on circuits which contain an LDR or a thermistor
