

Outcomes and experiences S3 Physics	G	O	R	How do I know I can do this or what can you do to improve your learning in this outcome?
I can describe an experiment to verify Ohm's Law				
I can identify the quantities, and units, represented by the symbols in the formula $V = IR$				
I can carry out calculations using the formula $V = IR$				
I can identify situations where the resistance of a conductor will increase with temperature, e.g. a filament lamp
