

Outcomes and experiences S3 Physics	G	O	R	How do I know I can do this or what can you do to improve your learning in this outcome?
I can define output devices as being able to convert electrical energy into another type of useful energy				
I can identify the symbol, function and possible application for a range of output devices including <ul style="list-style-type: none"> • LED • Motor • Loudspeaker • Relay • Lamp 				
I can carry out Ohm's Law calculations on circuits which contain an LED
